

HYH-880B High quality Cement curing cabinet

Features

- Stainless steel enclosure, nice appearance
- Precision temperature humidity control,
- Easy setup, automatic operation
- Advanced ultrasonic humidification technology, unique ceramic atomizer head
- Wide application, suitable for curing of cement, coatings, water-proof material.

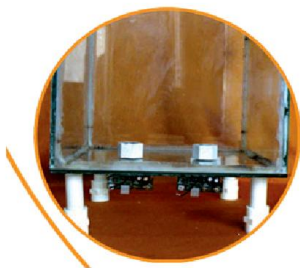

Advanced ultrasonic humidification technology

Ceramic atomizer head

Ceramic atomizer head

Common atomizer head

1. Corrosion resistance,
2. Easy replacement,
3. Low Maintenance cost.

Technical parameters

Index	Spec.
Instrument accuracy	$\leq 0.2^{\circ}\text{C}$
Controllable temperature	$5\sim 30\pm 1^{\circ}\text{C}$

- Add: 4th Floor, Building 2, Lane 180 Zhangheng Rd., Shanghai, China
 - Tel: 86-21-61480182 Fax: 86-21-61480184
 - Email: marketing@servereal-instruments.com

Heating power	500W
Refrigerating power	290W
Control humidity	40~90±5%
Dehumidification power	93W
Humidify/humidifying volume(supersonic humidifying automatic water supply)	35W 300ml/h
Power supply	220±10V 50±1Hz
Inside net size	1090×550×1390
Overall size	1200×740×1920

Quality components

Imported scroll compressor

Semiconductive ceramics
PTC heater

Colorful touch
screen controller

EEV

Centrifuge Fan
